

Prayer Points

June 2025

“...and call upon me in the day of trouble;
I will deliver you, and you shall glorify me.”

Psalm 50:15

Pray for Ethiopia as it faces ongoing humanitarian challenges, including food insecurity and health crises. The World Food Programme has suspended aid for 650,000 malnourished women and children due to funding shortages, putting millions at risk. Additionally, seismic activity in regions like Afar and Oromia has displaced thousands, compounding the difficulties faced by vulnerable communities. Pray for the swift mobilization of resources to address these needs and for the resilience of those affected. May God’s provision and mercy sustain the people during this challenging time.

Pray for the DR Congo as it continues to endure a deepening humanitarian crisis. Ongoing conflicts have displaced over 7 million people, and funding cuts have severely hampered aid efforts. The UN has launched a \$2.5 billion plan to deliver aid to 11 million people, but significant challenges remain. Pray for peace, sufficient funding, and effective delivery of assistance to those in need. Additionally, pray for the safety and well-being of our local partner working tirelessly in the region. May God’s peace prevail in the DR Congo.

Pray for India as it recovers from heavy flooding in different parts of the country, which has forced many people to leave their homes and lose their way of making a living. Many families are in great need of shelter, food, and clean water. Pray for our local partner EFICOR as they help with emergency support, and ask God to protect everyone affected. Pray that communities will be rebuilt quickly and that long-term solutions will help prevent future problems like this.

Pray for Kenya as it addresses the aftermath of recent floods that have displaced thousands and destroyed infrastructure. The government and aid organizations are working to provide relief and rebuild affected areas. Pray also for our local partner Fadhili Trust as they continue to serve the most vulnerable, and pray for the safety of displaced families, and for resilience as communities rebuild. May God’s peace and provision be evident in this time of need.

Pray for South Sudan as it grapples with the consequences of recent conflicts and natural disasters. An aerial attack in Old Fangak destroyed a hospital serving over 100,000 people, exacerbating the already dire healthcare situation. Flooding has further displaced communities, increasing the need for humanitarian assistance. Pray for peace, the protection of civilians, and the restoration of essential services.

Pray for us here at Tearfund Canada as we seek God’s wisdom and direction in all that we do. Pray for God’s guidance as we finalize our strategic planning, that every step would align with His will and bring lasting impact to the communities we serve. Pray that our team would be filled with unity, clarity, and a deep sense of purpose as we look ahead. May everything we do reflect Christ’s love and bring glory to His name. Lastly, pray for Ramesh, CEO of our local partner in India who is traveling to Canada to meet with donors. Pray for safe travels, smooth meetings, and fruitful conversations that bring hope and support to the work.
