

Prayer Points

August 2025

I have said these things to you, that in me you may have peace. In the world you will have tribulation. But take heart; I have overcome the world.

John 16:33

Pray for Ethiopia as many families continue to face severe hunger due to ongoing food shortages—WFP reports that over 3.6 million mothers and children are at risk of losing aid. Pray for provision, timely assistance, and for nourishment and hope to reach vulnerable households.

Pray for the DR Congo as heavy rains in July caused widespread flooding and landslides, affecting over a million people and damaging schools, markets, and health centers. Pray for safe shelter, clean water, and food for those displaced, and for health workers to reach those in need. May God bring comfort to grieving families and grant courage to responders as they work to restore broken communities. Pray also for our local partner CBCA as they finalize proposals for new projects that will reach the most vulnerable.

Pray for India as communities in the northeast struggle with recent floods in Manipur, where mud accumulation and poor sanitation are fueling disease risk. Pray for effective relief and clean water access to prevent outbreaks, and that relief efforts bring healing and restoration.

Pray for Kenya as many areas transition out of drought into flood risk, with seasonal rains leaving thousands displaced and communities vulnerable. Pray for relief supplies to reach remote areas and for sustainable farming support to help families recover. May God strengthen resilience and hope for those rebuilding their lives. Pray also for our local partner Fadhili Trust as they start new activities for the Nature+ initiative. Pray that everything will go smoothly and that farmers and the environment will benefit from these activities greatly.

Pray for South Sudan as more than 7.7 million people face acute food insecurity, worsened by floods, displacement, and rising prices. Pray for airdrops and local aid to reach remote communities, particularly children and returnees. May God bring relief, safety, and long-term stability to the most vulnerable.

Pray for the Middle East as various countries in the region grapple with humanitarian needs arising from conflicts and natural disasters. Millions are displaced, facing hunger and lacking basic services. Pray for peace, for the provision of necessities to those in need, and for strength and wisdom for aid workers serving in challenging conditions. May God's love and mercy be a source of hope and restoration to them.
