“Even though I walk through the valley of the shadow of death, I will fear no evil, for you are with me; your rod and your staff, they comfort me.”

Psalm 23:4

Ethiopia – Civil unrest, violence and crime still plague Ethiopia. Lack of rain put a tree planting project from one of our partners on hold and is affecting people’s farms and gardens.

Pray for:

- conflict in the Tigray region to subside and prevent civil war
- safety, peace, and stability for those burdened by conflict and drought
- rain so the tree planting can move forward and to replenish farmers’ fields

DR Congo – The DRC faces the largest Ebola outbreak the country has ever seen. Local distrust and a recent healthcare worker strike are disrupting medical care.

Pray for:

- healing for those with Ebola and peace for those who’ve lost loved ones
- wisdom, safety, and endurance for local churches and our local healthcare partners
- thanksgiving the outbreak is now maintained in DRC

India – Heatwaves put stress on agriculture in rural areas, but monsoons this time of year can bring heavy rain and destructive flooding. Clean water sources are often contaminated with wastewater during the rainy season.

Pray for:

- clean water access in the midst of the rainy season
- farmers in debt who rely on agriculture as their only income

- weather fluctuations to subside and bring less destruction

Kenya – Prolonged dryness and disease have been devastating for crops in some areas of Kenya, raising food prices. Flooding risks from El Nino are high in the coming months.

Pray for:

- families to have enough to eat
- weather to stabilize for more affordable and reliable food
- wisdom for local partners and churches to support their communities

South Sudan – Over half the population faces food shortages, and many children are vulnerable to malnutrition. Social norms perpetuate patterns of violence against women.

Pray for:

- long term food security and nutrition through agriculture programs
- healing for survivors of gender-based violence and child marriage
- improved governance and systems that help the country recover from price inflation
